NIH Confocal Grant Acknowledgement Form

The CGRB is currently able to provide equipment usage and services to OSU researchers as a result of generous funding provided by NIH for the Confocal Microscopy Facility. In light of ubiquitous budget cuts and the increased competition for funding, each Facility will need to effectively demonstrate their contributions to user research. In order to do this, we are compelled to obtain the commitment of Facility users to acknowledge the Confocal Microscopy Facility.

Your signature below verifies your dedication to conscientiously and accurately cite Confocal Microscopy Facility use in all relevant publications. For example:

“This publication was made possible in part by grant number 1S10RR017903-01 from the National Institutes of Health. The authors wish to acknowledge the Confocal Microscopy Facility of the Center for Genomic Research and Biocomputing at Oregon State University.”
